What you will need to buy cryptocurrency with your credit or debit card for the first time:

1. Cryptocurrency wallet / address of the cryptocurrency you are purchasing: BTC / LTC / ETH / BCH (see our post here for a quick and easy wallet guide)

2. Credit or Debit card

3. Mobile phone to take a selfie

4. Scanned or photographed images of your passport / national ID card (both sides) / driver's licence (both sides)

Buying cryptocurrency with your card, explained step-by-step
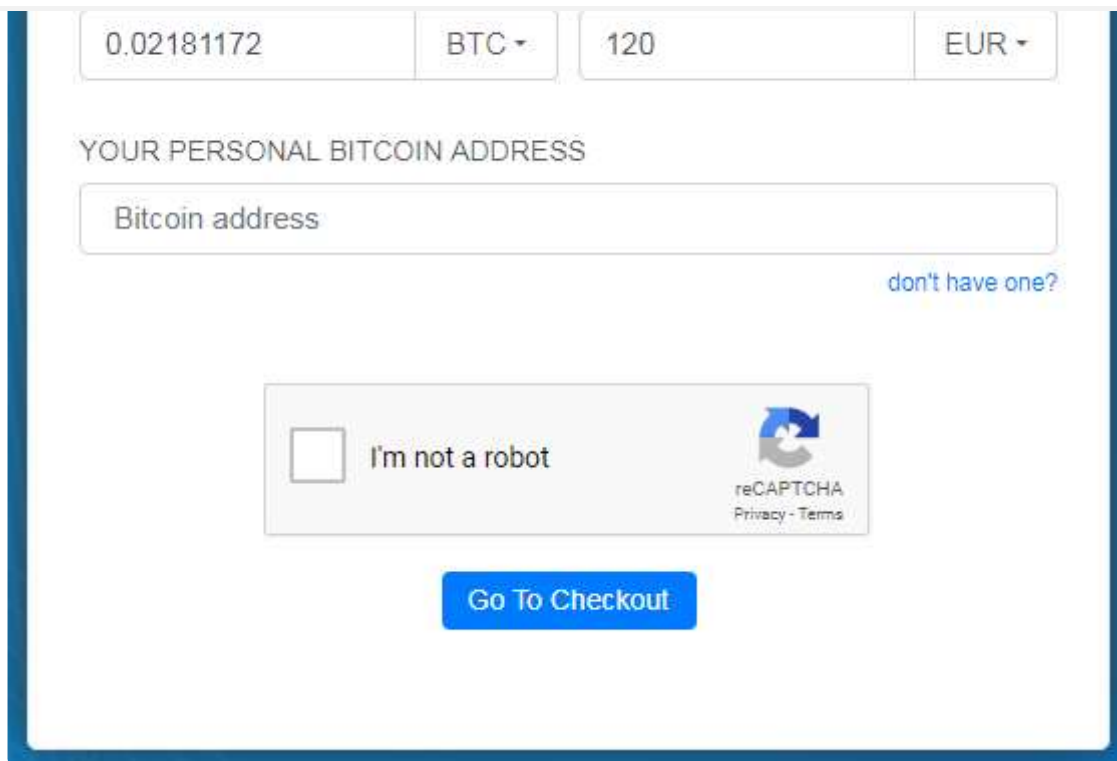

Step 1.

Visit buy.coingate.com and do the following: 1) select the cryptocurrency you want to buy, 2) enter the purchase amount (you can choose either EUR or USD billing), 3) your wallet address, 4) and Click *Go To Checkout*.

Step 2.

Enter your personal details, including your mobile number, and your billing address. In this window you can also see the amount your card will be charged in Euros or U.S. Dollars. The purchase will appear as *Buyeglcom* or *Simplex_Paybis* in your card statement. Check the box (if you agree to terms and privacy policy), and then click *Continue*.

Step 3.

You will now have to verify your email address and phone number. Check your inbox for an email confirmation link, and expect a text message with a 4-digit code that you will have to enter on-screen, or a phone call if you indicated a landline number. When you confirm your email address and phone number, the red X marks will turn into check marks, and you can proceed by clicking *Continue*.

details match the billing address you entered in Step 2. Note that you will not be billed just yet – your card will be checked for the required purchase value, and you will then have to proceed to ID verification. Click *Pay Now*.

Step 5.

Upload your ID document of choice: **passport** (double-page), **national ID card** (both sides), or **driver's licence** (both sides).
